

AMAR DEEP

Full Stack Developer • 3+ Years Experience

☎ +91-9196436518 ✉ amarkumar143321@gmail.com  LinkedIn  GitHub 📍 Lucknow, India

Professional Summary

Results-driven Full Stack Developer with 3+ years of experience building scalable enterprise applications using the PERN stack (PostgreSQL, Express.js, React.js, Node.js). Experienced in developing CRM systems, Placement Management Platforms, Microservices Architecture, and AI-integrated business solutions. Proven expertise in designing end-to-end applications including frontend development, backend APIs, database optimization, real-time communication systems, and dynamic PDF generation. Passionate about scalable architecture, clean code, and performance optimization.

Technical Skills

- **Frontend:** React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Redux Toolkit, Tailwind CSS, PrimeReact, SurveyJS
- **Backend:** Node.js, NestJS, Express.js, Python, JAVA, Spring Boot, FastAPI, REST APIs, Microservices, JWT, OAuth 2.0, WebSocket, Socket.IO, Redis
- **Database & Cloud:** PostgreSQL, MongoDB, MySQL, AWS, Firebase
- **Tools & Other:** Git, GitHub, CI/CD, Docker, Kubernetes, Playwright (Automation Testing), Figma, Canva, WordPress, PDFKit, Prompt Engineering, AI Integration, Query Optimization

Work Experience

Si6 Associates

June 2024 – Present

Full Stack Developer

- Built and maintained scalable React.js/Next.js frontends with TypeScript and PrimeReact, serving 1,000+ active users across multiple client projects.
- Designed and developed RESTful backend services using Node.js and PostgreSQL, reducing average API response time by ~30% through query optimization.
- Implemented dynamic PDF generation using PDFKit in TypeScript, enabling automated report delivery for clients and saving ~5 hours/week of manual effort.
- Architected and integrated microservices for modular business logic, improving system maintainability and enabling independent deployments.
- Improved application accessibility to WCAG 2.1 AA compliance; implemented end-to-end test coverage using Playwright, reducing production bugs by ~25%.

Spice India Digital Services

Dec 2023 – May 2024

Web Developer

- Developed and maintained 10+ WordPress websites for clients across e-commerce and business domains, ensuring 99%+ uptime for high-traffic platforms.
- Optimized website performance and SEO, contributing to measurable improvements in page load speed and organic traffic for client sites.

MavenVista Technologies Pvt Ltd

Sep 2022 – Nov 2023

Jr. Software Developer

- Contributed to the Vend-x product using Perl CGI — handled code optimization, debugging, and production deployment cycles.
- Reduced legacy codebase bugs by systematic debugging and refactoring, improving system stability and deployment reliability.

Projects

Cricket Pitch Booking System

- Developed a real-time cricket pitch booking platform with JWT-based authentication, role-protected APIs, and secure password hashing using bcrypt.
- Implemented slot reservation and booking workflows with PostgreSQL transaction handling, row-level locking, and concurrency control to prevent double-booking.
- Built real-time slot availability synchronization using Socket.io, enabling instant booking status updates across multiple users.
- Designed temporary reservation logic with automatic 2-minute slot expiry and cleanup mechanisms for abandoned bookings.
- Planned scalable architecture using Redis Pub/Sub, load balancing, sticky sessions, and database optimization strategies for high concurrent traffic.
- *Stack:* Next.js, React.js, TypeScript, Node.js, Express.js, PostgreSQL, Socket.io, JWT, bcrypt, REST APIs, Redis

CESAG – Placement & Alumni Management System

- Developed a complete Placement & Alumni Management System with role-based portals for Students, Alumni, and Placement Officers.
- Built job posting, interview scheduling, application tracking, and recruitment workflow modules.
- Designed scalable REST APIs and microservices using Node.js, NestJS, and PostgreSQL.
- Optimized complex SQL queries and implemented dynamic PDF generation with AI-assisted workflows.
- *Stack:* React.js, Next.js, TypeScript, Node.js, NestJS, PostgreSQL, PrimeReact, SurveyJS, PDFKit, Microservices

GREMI – CRM & Marketing Automation System

- Developed a CRM platform for lead management, ticketing, campaigns, and student support workflows.
- Implemented lead tracking from enquiries, registrations, and third-party agency API integrations.
- Built real-time chat and ticket modules for Students, Alumni, and Admin communication.
- Developed scalable backend APIs with query optimization, microservices architecture, and AI-powered automation features.
- *Stack:* React.js, Next.js, TypeScript, Node.js, NestJS, PostgreSQL, PrimeReact, REST APIs, Microservices, AI Integration

Education

School of Management Sciences, Lucknow
B.Tech (Computer Science)

Graduated: 2021
CGPA: 7.5/10
